TITLE OF PAPER

(Title: Upper case, Bold, Times New Roman, Font Size 16, Centred;

Page margin of top, bottom, left, and right = 2.54 cm)

ALI AHMAD^{1*}; JOHN VIRK² and XING TAN³

(Uppercase, Bold, Times New Roman, Font Size 12, Centred, Superscript 1, 2, 3, etc. to Indicate

Affiliation, Superscript * to Indicate Corresponding Author)

¹ Malaysian Palm Oil Board, 6, Persiaran Institusi, Bandar Baru Bangi, 43000 Kajang, Selangor, Malaysia.

² Faculty of Science and Technology, Universiti Kebangsaan Malaysia, 43600 UKM Bangi, Selangor, Malaysia.

³ Malaysian Timber Industry Board, 42700, Banting, Selangor, Malaysia.

(Indicate authors' affiliation with superscript 1, 2, 3, etc., and start each address on a new line,

Times New Roman, font size 12)

**Corresponding author e-mail: ali.ahmad@mpob.gov.my [Times New Roman, italic, font size 12]*

ABSTRACT

An abstract is required for every paper. Your abstract should give readers a brief summary of your article. It should concisely describe the contents of your article and include key terms. It should be informative, accessible, and not only indicate the general scope of the article but also state the main results obtained and conclusions drawn. The abstract should be complete in itself; it should

24 not contain undefined abbreviations, and no table numbers, figure numbers, references or
25 equations should be referred to. It should be suitable for direct inclusion in abstracting services
26 and should be within 150-200 words.

27

28 **Keywords:** anaerobic-aerobic, biogas, biological oxygen demand, palm oil.

29 (3-5 words; lower case, Times New Roman; font size 12; arrange alphabetically)

30

31 **Received:** (OPIEJ use only); **Accepted:** (OPIEJ use only); **Published online:** (OPIEJ use only)

32

33

INTRODUCTION

34 [All first-order headings (Header) use Times New Roman, font size 12, bold, and centred]

35 The paper must be in UK/US English. Naturally, your paper should start with a concise and
36 informative sentence describing the title of the article. Do not use abbreviations in it. Next, list all
37 authors with their first names or initials and surnames (in that order). Indicate the author for
38 correspondence. After having listed all authors' names, you should list their respective affiliations.
39 Link authors and affiliations using superscript lower-case letters. In general, the contents should
40 comprise Introduction, Materials and Methods, Results and Discussion, Conclusion,
41 Acknowledgement, and References. The manuscript should be supplied with 3-5 keywords.

42 Authors are expected to consider the list and order of authors before submitting their
43 manuscript and provide the definitive list of authors at the time of the original submission. Any
44 addition, deletion, or rearrangement of author names in the authorship list should be made only
45 before the manuscript has been accepted and only if approved by the journal Editor. To request
46 such a change, the Editor must receive the following from the corresponding author: (a) the reason

47 for the change in the author list and (b) written confirmation (e-mail, letter) from all authors that
48 they agree with the addition, removal, or rearrangement. In cases of author addition or removal,
49 this includes confirmation from the author. No additions, deletions, or changes to the authorship
50 of a paper will be permitted after the article is accepted.

51

52

MATERIALS AND METHODS

53 You will usually want to divide your article into first-order headings and second-order headings
54 (perhaps even third-order headings). Headings should reflect the relative importance of the
55 sections. Methods should be described in the past tense, as you are describing work that was carried
56 out to achieve the objective of the study.

57

58 **Oil Palm Industry Economic Journal** [Second order headings (subheader) should be bold, Times
59 New Roman, font size 12, capitalised each first word.]

60 Oil Palm Industry Economic Journal (OPIEJ) is an international refereed journal on various
61 aspects of oil palm and/or palm oil. The journal is circulated extensively within Malaysia as well
62 as other countries to individuals, commercial organisations, agencies related to oil palm and palm
63 oil, abstracting companies, and academic institutions. OPIEJ covers broad spectrum of subjects,
64 including economics, management, social sciences, and humanities, all within the framework of
65 oil palm and/or palm oil. Authors should clearly define their category of work in the cover letter.
66 The journal publishes research articles, reviews, and short communication whose content and
67 approach are of interest to a wide range of scholars.

68 In order to maintain the high standards associated with OPIEJ, papers submitted are
69 thoroughly scrutinised on their quality, especially in their originality, context, and universality of

70 the findings. Of course, they have to be readable in Standard English. Every paper published should
71 preferably be at the cutting edge of science or share something new and exciting.

72

73 [Third order headings (sub-subheading) should be bold, italic, Times New Roman, font size 12,
74 capitalised the first word]

75 **Regular article.** Full-length original empirical investigations, consisting of introduction, materials
76 and methods, results and discussion, and conclusion. Original work must provide references and
77 an explanation of research findings that contain new and significant findings. The conclusion
78 should be brief and focus on the research output, should not be in point form. These papers should
79 not exceed 5000 words of text (excluding abstract, tables, figures, and references) and generally
80 not more than a total of 10 figures and tables. OPIEJ does not publish supplementary data, please
81 include all relevant data in the text. Any additional figures or tables can be included in the
82 supplementary data. Please note that papers submitted to OPIEJ will be sent back to authors
83 because of poor figure resolution or exceeding the number of figures permitted.

84

85 **Short communication or Opinion paper.** Significant new information to readers of the Journal in
86 a short but complete form. Preferably not exceeding 2000 words (including tables, figures, and
87 references), and is intended for rapid publication. They are not intended for publishing preliminary
88 results or to be a reduced version of Regular papers.

89

90 **Review article.** Critical evaluation of materials about current research that have already been
91 published by organising, integrating, and evaluating previously published materials. Re-analyses
92 as meta-analyses and systematic reviews are encouraged. Review articles provide systemic

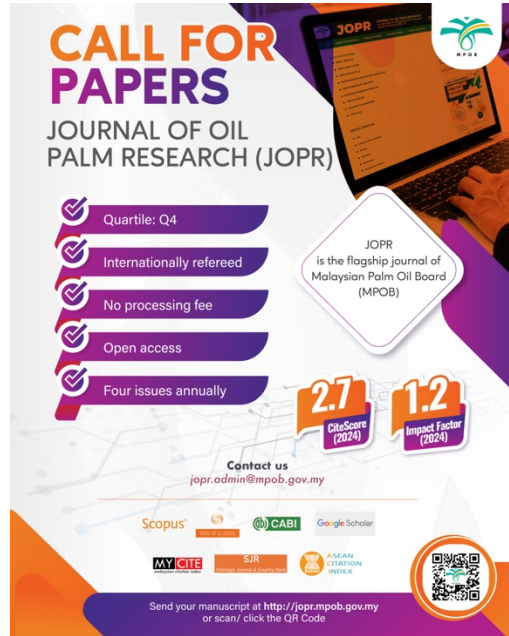

93 overview, evaluation, and interpretation of research in a given field. They should not exceed 4,000
94 words (including references) and should contain no more than a total of 10 figures and tables.
95 Please note that papers submitted to OPIEJ will be sent back to authors because of poor figure
96 resolution or exceeding the number of figures permitted. The same information should not be
97 repeated in a figure and a table.

98

99

RESULTS AND DISCUSSION

100 All illustrations must be labelled and placed after being introduced in the text. The illustrations of
101 photographs, schemas, graphs, and diagrams are to be referred to as figures. A figure is to
102 demonstrate a trend or lead to a conclusive statement, and is a raw spectrum or chromatography
103 that should be accepted in a scientific article. Figures should be placed at the top or bottom of a
104 page wherever possible, as close as possible to the first reference to them in the paper. These
105 illustrations should be referred to and numbered serially, as figures (*Figure 1*). All Tables and
106 Figures cited in the text must be in italics e.g. *Figure 1*. The figure number and caption should be
107 typed below the illustration in Times New Roman, font size 12, italic, and centred as shown in
108 *Figure 1* and 2.

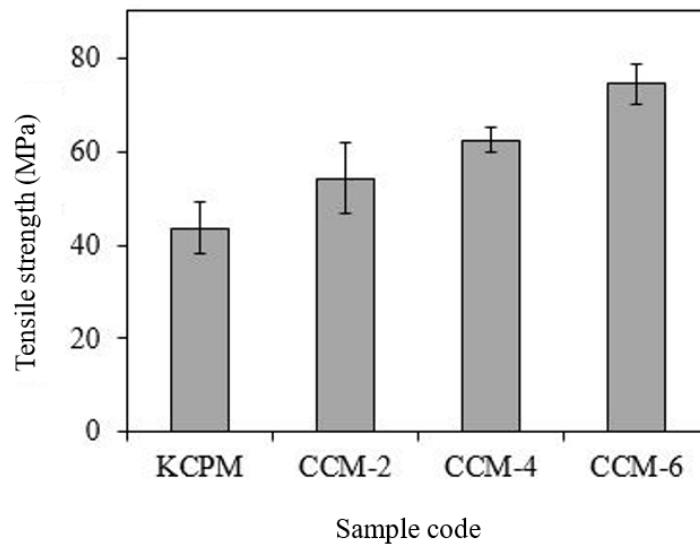

109

110

111

112

Figure 1. Illustration text and caption should be Times New Roman, font size 12, italic, centered, and included in body text.

113

114

115

116

Figure 2. All the text and numbers in the illustrations must be in Times New Roman and font size 12. Lettering and symbols should be clearly defined in the caption.

117

118

Keep text in the illustrations themselves to a minimum, but explain all symbols and abbreviations used. All the text and numbers in the illustrations must be in Times New Roman and

119 font size 10. Please indicate the Y & X-axis as well as the unit of measurement. Lettering and
120 symbols should be clearly defined in the caption. Please ensure that all the figures are at least 500
121 dpi resolution, as this will facilitate good output. All illustrations should be clearly drawn in
122 permanent ink or photographed in sharp black and white and reproduced in the form of high
123 contrast glossy prints or digital images and provided in camera-ready form.

124 All tables must be labelled and placed after being introduced in the text. Tables should be
125 placed at the top or bottom of a page wherever possible, as close as possible to the first reference
126 to them in the paper. These tables should be referred to and numbered serially, as tables (*Table 1*).
127 Every table should have a caption, and headings should be placed above tables. The table number
128 and caption should be typed in uppercase, Times New Roman, font size 12, bold, and centred.

129

130
131

**TABLE 1. UPPERCASE, TIMES NEW ROMAN,
FONT SIZE 12, BOLD AND CENTERED**

Type	Title two	Title three	Title four	Title five	Title six
A	12	16	11	11	10
B	1	4	7	6	2
C	15	5	9	4	17

132 Note: FFA - free fatty acid; SA- stearic acid.
133 Source: World (2020)

134

135 All the text and numbers in the tables must be in Times New Roman, font size 10, and
136 centred. In the table heading, no initial capitals except for the first word. Lettering and symbols
137 should be clearly defined either in the caption of the table. Only horizontal lines should be used
138 within a table to distinguish the column headings from the body of the table, and immediately

139 above and below the table. *Table 1* is an example that the authors may find useful. Please ensure
140 that the data presented in figures or tables do not duplicate results described elsewhere in the
141 article.

142

143

CONCLUSION

144 It is the author's responsibility to ensure that his or her submitted work does not infringe any
145 existing copyright. Authors should obtain permission to reproduce or adapt copyrighted material
146 and provide evidence of approval upon submitting the final version of a manuscript. Manuscripts
147 will be reviewed by the Editorial Board and at least one independent referee. Decisions regarding
148 the publication of a manuscript will be based on the Board's recommendations. The manuscript
149 will be evaluated based on its appropriateness for OPIEJ, contribution to the discipline, cogency
150 of analysis, conceptual breadth, clarity of presentation, and technical adequacy. Manuscripts
151 submitted by members of the journal's Editorial Board are subjected to the same review procedure.

152

153

ACKNOWLEDGEMENT

154 The information presented in the acknowledgment section should be kept brief, identify the
155 contributors responsible for specific parts of the project. It should only mention people directly
156 involved with the project from a sponsoring institution, other researchers who have helped in the
157 preparation. This template gives formatting guidelines for authors preparing papers for publication
158 in the OPIEJ. The authors must follow the instructions given in the document for the papers to be
159 published.

160

161

REFERENCES

162 References in the text should be denoted by giving the name(s) of the author(s). All alphabetically
163 ordered references should be included at the end of the manuscript. All references cited in the text
164 must appear in the reference list and vice versa. In the OPIEJ manuscript, narrative citations such
165 as Aliza et al. (2020), Adam and Idris (2016), and Malaysian Timber Board (MTB, 2025) are
166 preferred. However, most authors currently use parenthetical citations, e.g., (Faizah et al., 2020;
167 Khairul & Nazmie, 2021; Malaysian Palm Oil Board [MPOB], 2016). Authors are responsible for
168 the accuracy and completeness of all information in the reference. Manuscripts must conform to
169 the references in **APA Style 7th edition** ([https://apastyle.apa.org/style-grammar-](https://apastyle.apa.org/style-grammar-guidelines/references/examples)
170 [guidelines/references/examples](https://apastyle.apa.org/style-grammar-guidelines/references/examples)). The reference style adopted should be consistent throughout the
171 manuscript.
